PROJECTS

NETFLIX - CLONE

- My current undertaking unfolds as an artful user interface project that mirrors the immersive Netflix experience.
- In orchestrating this venture, I deftly wield the tools of HTML, CSS, React.js, Express.js, MongoDB. To further refine and elevate this pursuit, I am actively seeking profound insights and expert counsel to propel the project to new echelons of sophistication

CRUD - STUDENT APPLICATION

- StudentHub streamlines student data management for educational institutions, utilizing HTML5, CSS3, React.js, Node.js, and Express.js. It offers a robust CRUD system for efficient handling of student information.
- This solution ensures optimal performance and scalability, empowering administrators with a user-friendly interface. StudentHub sets a new standard in educational administration software, enhancing productivity and efficiency.
